STANDARD PROCEDURE INSTRUCTION

Title ELEVATORS Page 1 of 1 SPI No. 32-1

Supersedes SPI Dated NEW

Department DIVISIONAL MAINTENANCE Effective Date OCTOBER 7, 1994

1. GENERAL

- 1.1 All elevators on the plant site will be installed and maintained in accordance with The Elevator Act and the regulations thereunder. W.S.H.A. W210 M.R. 62/87 Section 236.

2. PROTECTION OF ELEVATOR MACHINERY ROOMS:

- 2.1 All elevator machinery rooms on the plant site are "Authorized Personnel Only" areas, and shall be properly designated as such by identification at all entrances to the machinery room.
- 2.2 There shall be an approved fire extinguisher in all elevator machinery rooms on the plant site.

3. MATERIAL STORAGE:

- 3.1 The elevator machinery room will not be allowed to be used for storage of any materials not routinely used for maintenance of the elevator. There will be no storage of lubricants or aerosols.

4. INTERPRETATION:

- 4.1 All matters of interpretation of these standards are to be referred to the manager of the respective area or his designate.
